

Course 16 — Teacher Guide

Before You Start

- Review each lesson's `Instructor_Guide.md` in order — each assumes the prior lesson's deliverable exists (e.g. Lesson 4 assumes the Lesson 3 site skeleton is running).
- Have the [Lesson_03_Portfolio_Website/Projects/Portfolio_Website/completed/](#) reference open as your own demo target — never distribute it to students before Lesson 3 is taught, since it spoils the exercise.
- Confirm your own GitHub + Vercel accounts are ready before Lesson 7 — sign-up flows change, so do a dry run within a week of teaching that lesson.

Pacing Overview

Lesson	Suggested duration	Depends on
1	60 min	—
2	60 min	L1
3	75–90 min	L2
4	60–75 min	L3
5	60 min	L4
6	60 min	L4, L5
7	75–90 min	L3–L6
8	60 min	L7

Cross-Lesson Consistency Checks

By Lesson 8, every student's portfolio should have: their real name/direction (not starter placeholder text), a bio (L4), a consistent brand applied (L5), 2–3 real case studies (L4/L6), and a live URL (L7). Use the Lesson 8 worksheet's final QA checklist as your grading pass.

Classroom Notes

This course produces real, permanent artifacts (a live website). Remind students at every lesson: content should be honest — real projects, real skills, no fabricated achievements or testimonials. This norm carries into Courses 17 and

18.

What Comes Next

Course 17, "Skills That Pay," turns this portfolio into a priced, sellable service package — students should leave Course 16 with a deployed site and real case studies in hand.
