

Worksheet: Personal Brand Kit

Fill this out during and after the Canva activity. Use the filled example (Jordan R.) as a model for what a complete answer looks like.

Part 1: Color Palette Picker

Pick 2–3 colors. For each, name the hex code (from Canva's color picker) and where you'll use it.

Example — Jordan R.

Color role	Hex code	Where it's used
Dominant	#1B3A4B (deep navy)	Header, navigation bar, footer
Accent	#F2A93B (warm amber)	Buttons, links, small highlights
Neutral	#F5F5F0 (off-white)	Page background

Your Turn

Color role	Hex code	Where it's used
Dominant		
Accent		
Neutral (optional)		

Contrast check: Would your body text color be easy to read on your background color? (Circle one) **Yes / Not sure / No — I need to adjust**

Part 2: Font Pairing Selection

Example — Jordan R.

Font role	Font name	Why this font
Heading	Poppins Bold	Bold and geometric — feels confident and modern, good for names/titles
Body	Inter Regular	Clean and simple — easy to read in longer paragraphs, doesn't compete with the heading font

Your Turn

Font role	Font name	Why this font
Heading		
Body		

Part 3: Brand Voice — Three Adjectives

Write one line describing how you want your writing to sound, using exactly three adjectives.

Example — Jordan R.: *"Curious, precise, encouraging."*

Your line: _____

Check: Do these three words match how your Lesson 4 bio actually reads? (Circle one) **Yes / Partly / Not really**

If "Partly" or "Not really," note one sentence from your bio you'd want to revise later:

Part 4: Simple Mark — Text Description

Since you're describing your mark here in words (you'll build it visually in Canva), answer these:

1. **Shape used:** (e.g., circle, square, hexagon, no shape — just text)

2. **What's inside/on it:** (e.g., initials "JR", a simple icon, your full name in your heading font)

3. **Colors used in the mark:** (should be 1–2 colors, pulled from your palette above)

Example — Jordan R.: 1. Shape used: Circle 2. What's inside: Initials "JR" centered, in the heading font (Poppins Bold) 3. Colors: Navy circle ([#1B3A4B](#)) with white "JR" text

Part 5: Brand Consistency Checklist

Once your Brand Kit is built, check that it's actually being applied — or plan where you'll apply it next.

Where it needs to show up	My dominant color	My accent color	My heading font	My body font	My mark	Matches my voice adjectives
My bio (Lesson 4)	☐	☐	☐	☐	☐	☐
My portfolio site (Lesson 3 skeleton)	☐	☐	☐	☐	☐	☐

Where it needs to show up	My dominant color	My accent color	My heading font	My body font	My mark	Matches my voice adjectives
Future posts / case studies	☐	☐	☐	☐	☐	☐

Example — Jordan R. (partially filled in, as a model):

Where it needs to show up	My dominant color	My accent color	My heading font	My body font	My mark	Matches my voice adjectives
My bio (Lesson 4)	☐ not yet	☐ not yet	☐ not yet	☒ already readable	—	☒ mostly
My portfolio site (Lesson 3 skeleton)	☐ needs CSS update next lesson	☐ needs CSS update	☐ needs CSS update	☐ needs CSS update	☐ add to header	—
Future posts / case studies	☐ plan to use	☐ plan to use	☐ plan to use	☐ plan to use	☐ plan to use	☐ plan to check

One thing I'll fix first, before next lesson: _____

Submission

Attach your Canva Brand Kit link here: _____

Submit this completed worksheet along with your Canva link by the end of class.
