

Course 17 — Teacher Guide

Before You Start

- Review each lesson's `Instructor_Guide.md` in order.
- Verify current age/account policies for Fiverr, Upwork, Etsy, Gumroad, and any other platform mentioned in Lessons 1 and 6 before teaching — these change over time and this course is explicit that students should check current policy rather than trust a fixed date.
- Read the entire [Lesson_08_Client_Simulation/](#) package (Instructor Guide + all `Simulation_Resources`) before starting the simulation — you will role-play the fictional client, Priya Alvarez, across three sessions.

Pacing Overview

Lesson	Suggested duration
1–7	60 min each
8 (Client Simulation)	3 sessions × 60–75 min

The Non-Negotiable Rules (repeat these often)

- Never instruct bypassing an age requirement or misrepresenting age.
- Never imply a generic agreement template is a real legal contract.
- Real client work as a minor should involve a parent/guardian.

What Comes Next

Course 18, "Professional Presence & Opportunity Building," turns the finished service package and simulated client project into visible, discoverable proof — students should leave Course 17 with a completed Client Simulation package in hand.
