

Client Inquiry Email

(Fictional — the engagement's opening message.)

From: Priya Alvarez (Career Compass Club Advisor) **Subject:** Website help for our club?

Hi! A student mentioned you build websites and might be able to help. Our club (Career Compass Club) doesn't really have an online presence — we just use a group chat, which means people miss stuff and new students don't know we exist.

I think we need some kind of simple webpage — what we're about, upcoming events, and a way for people to say they're interested in joining. I'm not that technical, so I'd need it to be easy to update later. We don't have a budget to spend on this, so free tools only.

Would you be able to help? What would you need from me to get started?

— Priya
