

Worksheet: Showcase Entries

Course 18, Lesson 3 — Showcase Your Work

Name: ____ Date: ____

Instructions

Pull 2–3 of your strongest projects from your Course 16 case studies. For each one, draft a full showcase entry below (title, result-focused description, link) *before* you add anything to your live LinkedIn Featured section or portfolio page. Then complete the final polish checklist at the end using the Portfolio Review Checklist.

Filled Example — Jordan R.

Showcase Entry 1

Field	Entry
Project (from Course 16)	MoodBoard: A Daily Mood Tracker for Teens
Title	MoodBoard — Daily Mood Tracker (App Concept)
Description (1–2 sentences, result-focused)	Designed and mocked up a mood-tracking app aimed at teens; tested with 10 classmates over one week, with 8 saying it helped them notice mood patterns they hadn't before.

Before You Publish — Quick Self-Check

For each entry above, confirm:

- ☐ The description states an outcome or result, not just a list of steps taken.
- ☐ The link is set to "Anyone with the link can view" and I tested it in an incognito/private window.
- ☐ The title is short and specific (not just "Project 1" or "My App").
- ☐ I chose this project because it's one of my strongest, not because it was the easiest to write about.

Final Polish Checklist

Once your showcase entries are live on your LinkedIn Featured section or portfolio Projects section, open [Shared_Resources/Checklists/Portfolio_Review_Checklist.md](#) and run it against your **entire** profile/page — not just today's new entries. Use the space below to record what you found.

Checklist item flagged	Edit I made
Example: Headline felt generic	Rewrote headline to mention my specific interest area
1.	
2.	
3. (if applicable)	

Confirm when done:

- ☐ I ran the full Portfolio Review Checklist against my profile/page.
 - ☐ I made at least two concrete edits based on what it found.
 - ☐ I viewed my profile/page as a stranger would (LinkedIn "View as public" or an incognito window) and everything displayed correctly.
